- Works with other essential ingredients to remineralize the scalp—critical for healthy, abundant hair.

## Galvanic Spa™ System II Technology

The Galvanic Spa™ System II utilizes galvanic currents—available in both negative and positive polarity options. To help draw out impurities and deliver beneficial ingredients, Galvanic Spa™ II Treatments require products formulated with negative and positive polarities.

Only products bearing the Galvanic Spa™ II Product Compatibility Key  have been specifically formulated with a polarity that works with galvanic technology. Other products are not compatible with galvanic currents.
